

New In Town: Caballa Canalla

MARKET FRESH

Caballa Canalla is the latest eatery on Barceloneta's bustling food scene, and it's the creation of former Director of Tourism for Catalunya, Isabel Galobardes, and her son, Guillem Rofes. This spacious, open-plan restaurant forms part of the neighbourhood market, which is located on the expansive Plaça Poeta Boscà and boasts a menu of fresh tapas and Mediterranean dishes served throughout the day. The owners have successfully created a comfortable, minimalistic environment where customers can sample the extensive cocktail menu and wine list, to wash down freshly-cooked delights made with local market produce. The bright, inviting interior is spread over two floors and includes a sunny terrace—the perfect stop-off after a day on the beach.
